

Japan-ASEAN Cooperation Projects on Food and Agriculture

February 2018

Mission of Japan to ASEAN

- Japan has cooperated with ASEAN in the area of food and agriculture focusing on food security and establishing food value chains (FVC) .
- Japan has also provided various cooperation with individual ASEAN countries, including technical cooperation through the JICA and agricultural policy dialogues.

(Example1)

Human Resources Development Project in Food-Related Areas through Partnership Program with Universities

- Hold lecture programs on seed industry, agriculture, and food industry in ASEAN universities dispatching Japanese experts
- Provide practical knowledge and technique on Japanese advanced technology/services through the programs
- Until now, more than 200 Japanese experts have been dispatched and more than 2,000 students have participated in the programs

Phase 1 started in 2014, and phase 2 is under implementation until 2020

(Example 2)

Project for Strengthening Capacity Building in Agriculture Sector in ASEAN Countries

- Hold training courses dispatching Japanese experts for capacity building based on specific needs by ASEAN countries
- Hold seminars by Japanese companies on FVC aiming of improving common understanding on FVC
- Until now, more than 1,000 related to agriculture have participated in training courses. After the program, they have engaged in dissemination/extension activities

Phase 1 started in 2011, and phase 3 is under implementation until 2020

(other projects of Japan-ASEAN food and agriculture cooperation)

- ◆ Funding Support for the establishment of the ASEAN Plus Three Emergency Rice Reserve (APTERR)
- ◆ Project for Improving Statistics Data on Food Processing and Distribution related to Agricultural Crops in ASEAN Region
- ◆ Project for Promotion of Sustainable Fisheries in Southeast Asian Region
- ◆ Research Project for Policy Recommendations to ASEAN Countries on Realization of Higher Value Added of Agricultural Products
